Dr.J BUILDING & SELLING BUSINESSES SINCE 1995

ABOUT DR. J

I'm Dr. Jay Reubens with nearly four decades of building, buying and selling business experience along with a keen knowledge in financing and career change. My passionate journey began in Boston in 1995 with the sale of my thriving dental practice and pharmacy. I then invented and patented the first touch free dispenser before selling that business to a multibillion dollar company, Ecolab. I then invented the first alcohol free hand sanitizer and with the sale pending was recruited to lead my own M&A Division with a leading M&A company. It is with great satisfaction I have in working with entrepreneurs/business owners who have sacrificed so much in dedicating themselves to growing their businesses and want to maximize their return on investment. As a lead mentor with the largest mentoring organization, thevmt.org, I have assisted the owners in building and selling their businesses or buying new businesses. In essence I understand where you are as buyer or seller and will be right by your side, every step of the way to take your buying, selling and career change to fruition.
